A cosy chamber, cortains white,
A cradle swaying to and fro;
A young wife, orooning to the night
And sleeping babe tunes, quaint and low;
The manly step, juss at the door,
The quickening pulse, the walting hush—
And then, such greeting as of yore
Gave lip and cheek the brighest flush.

New York Coffee Market.

New York Conce Market.

NEW YORK, March 23.

The Daily Builetin says: Holders of the stocks of Brazils continue to ask former prices, and claim to look upon their position as a firm one, while the majority rather back up their opinion by refusing to open negotiations except at extreme quotations. There is not, however, much of an opportunity to refuse negotiations, as the strend quotate of buyers is still quife small, and the lack of interest so long notice ble remains a lack of interest so long notice ble remains a of an opportunity to refuse negotiations, as and attendance of buyers is still quite 'small, and 'the lack of interest so long notice bole remains a lack of interest so long notice bole remains a ruling feature. Java is quite as dull as any other grade, and though the stock, as a rule, is steadily held and sparingly offered, we find a number of dealers who do not feel remarkably confident, in view of the recent advoces from abroad. West India grades are steady and the best lots firm, with a probability that, if owners would accept the rates of ten days or so ago, they could effect further sales of involces from first hands, though to day the movement has been very fair, and 'all figures were understood to have been paid. The reported sales embrace 6036 bags Lagnayr. Per "John Boulton," and 500 bags do per "Isabella," both to arrive, and on spot 185 bags Maracalbo, all on private terms. At the outports there has been a good movement in Brazils, embracing, in addition to the sales previously reported, 3200 bags Rio, at Ballimore, per "Voltiguot," and at Mobile some 11,000 bags per sundry vessels. It is also hinted that two or three good-sized parcels have been sold here, and the particulars suppressed for the present. We quote Rio, (nominally) gold, in bond: Ordinary cargoes 14%a15; fair do 15%a15%; good do 16a16%; prime do 16%a17c.

New York Rice Market.

New York Rice Market.

New York, March 23.

The Daily Bulletin says: The demand is fair from the trade, but, since the recent advance, buyers are more cautious, especially as the continued delay in the opening of navigatim and the reduction of freight charges somewhat retard the interior distribution. Holders are very stiff in their views, and the stock generally is only offered at extreme figures. Sales of 75 tierces Carolloa at 8%a9%c, and 275 bags Rangon at 73 kG.

New York Hay Market. The Dally Bulletin save: Hay continues scarce, and prices hold their own pretty well, but as soon as we have more moderate weather, receipts will increase via the Korth-Elver, and it is expected lower prices will rule. Straw is selling moderately at unchanged but steady prices.

matism.

We give below a brief extract from a report of
the Lehigh County Medical Society, as published
in the transactions of the Medical Society of Pennylvania, June, 1868:

ayirania, June, 1865:
"Internally, I gave quinine and iron and a good nourishing diet. Still I found great trouble in keeping up healthy granulatious, they would become sluggish. I tried a number of alteratives, as iodide of potassium and lime. Still the case as iodide of potassium and time. Still the case progressed very slowly until my attention was attracted to an article in the Medical and Surgical Reporter, On Iodoform and Iron. I at once concluded to give this reinedy a fair trial. I discontinued all other constitutional treatment, and cincid to give his tentry land is reatment, and gave three pills three times a day, manufactured by W. R. Warner & Co., of Philadelphia. I soon had the satisfaction of seeing a rapid improvement. The pain at once left her limb, with which she had suffered continually; the granulations became more healthy and more abundant, and now have the satisfaction of seeing my patient engaging in all her household duties. Not a vestive of the disease is to be seen. The patient is enjoying perfect health, it active and lively. "Since, I have treated two other cases, one of three and one of four years' standing, with the same good result. I feel convinced of the efficacy of the remedy.

COTTON FOOD!

which they claim to be of the Highest Grade of Fertilizer sold in the South, and guarantee to equal in results Peruvian Guano, pound for pound, and of more permanent benefit to the soil.

It has been used by several hundred Planters in North and South Carolina and Georgia, for two

seasons, with the following results:

It increases the crop from 100 to 200 per cent.

It resists drought in all cases. The crop is not affected by rust.

It matures the crop three to four weeks in advance, thus insuring the crop against early frosts, or in the event of a backward season for planting enables the planter to put in his crop three or four weeks inter, even as late as the list of June, with a certainty of success.

It produces a better quality of Cotton.

Looking at the low price of Cotton, the intelligent planter will readily comprehend the necessity; of using nothing but the highest grade of Fertilizers, and of strictly avoiding those whose value has been reduced by adultera ion or the use of cheap materials under the pretence of meeting the ow price of Cotton.

w price of Cotton.

If his crop is only doubled by the use of "COTTON FOOD" it will give him from one to two hundled per cent. profit on h s outlay, with Cotton at 12% cents per pound, and it will enable him to plant wer acres, with a corresponding reduction of labor and expense, with better results.
